

# ABOUT US

## Our Company

Miquill Catering Services is a founder-led business in Worcestershire. We have a fresh, personalised and personable approach with delicious and nutritious meals in schools and bespoke hospitality in the local area.

## Our Food

We are passionate about food and using fresh and sustainable ingredients. We create healthy, fantastic tasting, homemade meals that children are keen to eat. The menus are selected to comply with the Government's legislation for healthy eating and provide the right balance of nutrition to give children what they need.

## Our People

We value and nurture our highly-experienced chefs who are inspirational in ensuring that the food provided is of excellent quality. They, in turn, nurture the children in the arena of healthy eating. All of our staff are fully trained and assessed in food hygiene, leading to Five Star ratings at our establishments.

## Our Suppliers

We are proud to use seasonal produce as much as possible and research to support credible suppliers that are local to each customer. Including:

- Bradshaws Butchers for meat who use locally reared, free range animals
- Par Pack Produce for local fresh fruit and vegetables

The more locally we buy, the fewer food miles our goods travel. This not only helps reduce the impact our provision of catering services has on the environment but it means that our customers also enjoy great tasting, fresh and seasonal food.

# Woodfield Federation menus

Miquill Catering Services pays time and attention to ensuring that there are exciting and interesting choices for all pupils and staff to enjoy. We cater for special dietary requirements, advise on allergens in menus and offer gluten-free alternatives for all dishes. Our focus is to deliver a great meal experience every day. Here are some of the options that we offer:

Mi-Deli offers a fresh range of salads from our self-service salad bar. From favourites such as cucumber moons and carrot batons to composite salads such as minted new potato salad and coleslaw we offer a range of options every day as a free add on to any chosen meal. We also alternate in offering a range of sandwiches, bagels and wraps as an alternative to a hot meal choice.

Mi-Restaurant serves our hot meals, with a meat and vegetarian option available daily, along with seasonal sides, jacket potatoes, hot desserts, fruit and yoghurt. The menu has been carefully drafted in line with the Government's legislation for healthy eating including recommended portion sizes, frequency of food types and combinations. We also offer special theme days with dishes from around the world where the children have the opportunity to try something different and learn about the countries where the dish originated.
